"If the Independence should lose I will congratulate the owners of the boat beating ner; if she wins I will be happy and I will ask that the Independence be allowed to defend the America's Cup. If it is decided by those who have the right to decide that there is some reason which makes it impossible or her to defend the Cup I will cheerfully withdraw such request. I know of no reason why the owners of the Columbia or the new Herreshoff boat should race the Indepen dence if they do not care to, any more than the Independence should race their boats if I did not wish to have her, and I might sa here that I regret the talk which has been made about the Independence coming to the starting line of the trial races or to the line in any yachting event, which is the affair of the New York Yacht Club or any other club, without being invited, as being too silly to

receive consideration from any one In regard to the statements printed that under certain conditions I would resort to the subterfuge of allowing some one else who had no ownership in my boat, to be pro-claimed her owner for the sake of being al-lowed to race. I can only say I regret there is any one connected with yachting so un-manly as to think this possible. No one has ever suggested such a thing to me, and perhaps it is well no one has made that mis-take. Of course I want to have the Inde-pendence race. If she does not I suppose the tides will come in and go out that good Boston sailors will go to sea in ships the same as heretofore, but rather than resort to the methods suggested to obtain a race I would, without regret, sink the Independence on her launching day, turning her sternhoard into a permanent beacon for the guidance of future New England sailormen. who had no ownership in my boat, to be pro

Pink Lemonade. CRICAGO, March 9. - Behind barricaded doors and shuttered windows the women students of the University of Chicago to-night gave their first performance of the "Midway Extravaganza." It wasn't much as regards width, but it was great longitudinally, extending from Norfolk, Va., to Portland, Me. It was about as thick as any fog that has loafed around these waters in many years.

There were occasional rifts in the gloom, and during one of these the marine observer at the Hook noted the belated White Star liner Germanic passing in at 4.28 P. M. She was swallowed up in the grayness and, it is surmised, anchored in the lower buy. She was more than a day late. Her agents say her protracted trip was probably caused by heavy weather.

The fog was heaviest on the waters, and all ferry traffic was interrupted or stopped. The Roosevelt street ferry boats ceased running at 3 o'clock, and the ferry from the foot of Whitehall street to Thirty-inith street. South Brooklyn, went out of commission at 6 P. M. The Hamilton avenue and Atlantic avenue boats from Whitehall street ran a forty-ininute intervals. Only two boats were used on each line, and before a boat left her silp she waited for her sister ship to come in so as to avoid the possibility of collision in stream.
